Rensselaer Schools Families, Faculty and Staff,

Recently there has been widespread news coverage surrounding immigration status in the United States and the potential impact to public education.

RCSC recognizes in these uncertain times many of our families and students are fearful, nervous, and unsure about the future. Never doubt Rensselaer's commitment to you and the confidence of knowing our schools continue to be a safe place for **every** student.

To be clear, **Rensselaer Schools does not collect or record the immigration status of students or their families.** No such information is kept in any school records.

Rensselaer Schools Faculty, Staff and Administration will ALWAYS prioritize the safety of our students and families while on RCSC property. Rensselaer employees have reviewed the protocol to keep all students safe.

As a District, Rensselaer Schools focuses on what is within our control: ensuring that RCSC continues to be a safe environment. We remain loyal in our dedication to providing an education for every student who attends Rensselaer Central Schools.

Thank you for your continued support of our great District.

Rensselaer Central Schools Administration
